

Menu Planning: How to Serve a Reimbursable Meal

All meals served in the Summer Food Service Program (SFSP) must meet certain requirements in order to receive reimbursement. These requirements, including the meal patterns and recordkeeping, help the menu planner in providing well-balanced, nutritious meals that meet the nutritional and energy needs of children. This toolkit page walks you through some of the SFSP requirements to make sure you receive reimbursement for the meals served at your summer site.

The Basics: Meal Pattern Requirements

The SFSP meal pattern is practical, flexible and allows sponsors to create recipes and menus that are nutritious and consistent with the *Dietary Guidelines for Americans*. The chart below outlines the required food components and minimum serving size of each food component for breakfast, lunch, supper and snacks. All food components that make up a reimbursable meal must be offered in order to be considered for reimbursement and should be served to all children at the same time.

Breakfast Meal Pattern

Select All Three Components for a Reimbursable Meal

1 milk	1 cup	fluid milk
1 fruit/vegetable	1/2 cup	juice, ¹ and/or vegetable
1 grains/bread ²	1 slice 1 serving 3/4 cup 1/2 cup 1/2 cup	bread or cornbread or biscuit or roll or muffin or cold dry cereal or hot cooked cereal or pasta or noodles or grains

Documenting the Meals You Serve

Keeping good records of the meals you prepare and serve each day is part of any successful food service operation. Records are a valuable written history of your summer site operations and can be used for future reference when menu planning. They also help sponsors spot trends, what menus work best with the children and decide what changes should be made.

Good recordkeeping is essential because it is the sole basis for reporting the number of meals you serve, and in State reviews records demonstrate that the meals served at your site comply with the SFSP requirements. Full and accurate records must be kept of allowable program costs as well as the number of program meals served to support each claim for reimbursement.
